

Fatfile Lateral Drawer Cabinet

File storage doesn't need to be boring. Fatfile Lateral Drawer Cabinets are an elegant storage solution for both the office and home. Made entirely of steel, Fatfile will last a lifetime.

Designer Paul Morris has turned the utilitarian notion of filing systems on its head and come up with an exciting addition to the Australian storage scene. With deep drawers featuring enclosed sides, Fatfile Filing Cabinets can be used as a general storage system as well as for file storage.
