

**Eclipse Digital Combination Lock
3760**

Product Description

The innovative Eclipse digital combination lock 3760 can be retro-fitted to office furniture and provides a clear upgrade path for new and refurbished office furniture. Working with a removable cylinder, the lock fits neatly into the aperture left in the furniture when the old cylinder is removed. This lock is also ideal for use in modern office 'hot desking' environments and personal or temporary storage for employees' belongings. Applications for the Eclipse lock include **Metal** and **Wooden Office Furniture**.

For further information visit the **Eclipse Lock** webpage, download the **brochure**, **email** or contact us on **+44 (0) 121 505 0400**.

User, Programming and Installation Guides can be found on our **Downloads** page.
