Education

BUILT FOR LEARNING. MADE TO LAST.

The Planex education range is designed to meet the needs of contemporary learning environments.

Our Australian made products are used extensively in early learning centres, schools and tertiary institutions. Sustainable, safe and durable, Planex's award-winning storage solutions are specified by leading architects and designers around the country.

Front cover / .02

Project: Prahran High School

Practice: Gray Puksand

The integrated locker banks reflect the school's colour palette. The freefold perforation and customised colour combinations were utilised on all five vertical levels.

xLocker2 System.

Lockers play a key role in all educational institutions, so it's essential to choose a product that's safe, robust and easy to use.

The Planex xLocker2 is characterised by a sleek, contemporary design that can be customised with a range of perforations, including exclusive designs by First Nations artist Lucy Simpson. xlocker2 is lock-agnostic and compatible with most locking options and systems. Components can be easily reused and reconfigured to adapt to new layouts.

Product notes

- : Available in 300mm or 400mm widths
- : 300+ colours
- : Awarded Good Design Award 2019
- AFRDI Blue Tick Certified
- AFRDI Green Tick Platinum Level A Certified

* Refer to page .19 for Product Certification

Project: Cardijn College

Cardijn College (SA) used various locker heights to suit different student needs. The school chose individual padlocks as a simple locking device.

Project: Albert Park College
Practice: Jackson Clements Burrows (JCB)

Planex liaised with Jackson Clements Burrows and Albert Park College to create functional and flexible spaces. The low-level lockers with custom planters provide safe student storage without obstructing view lines.

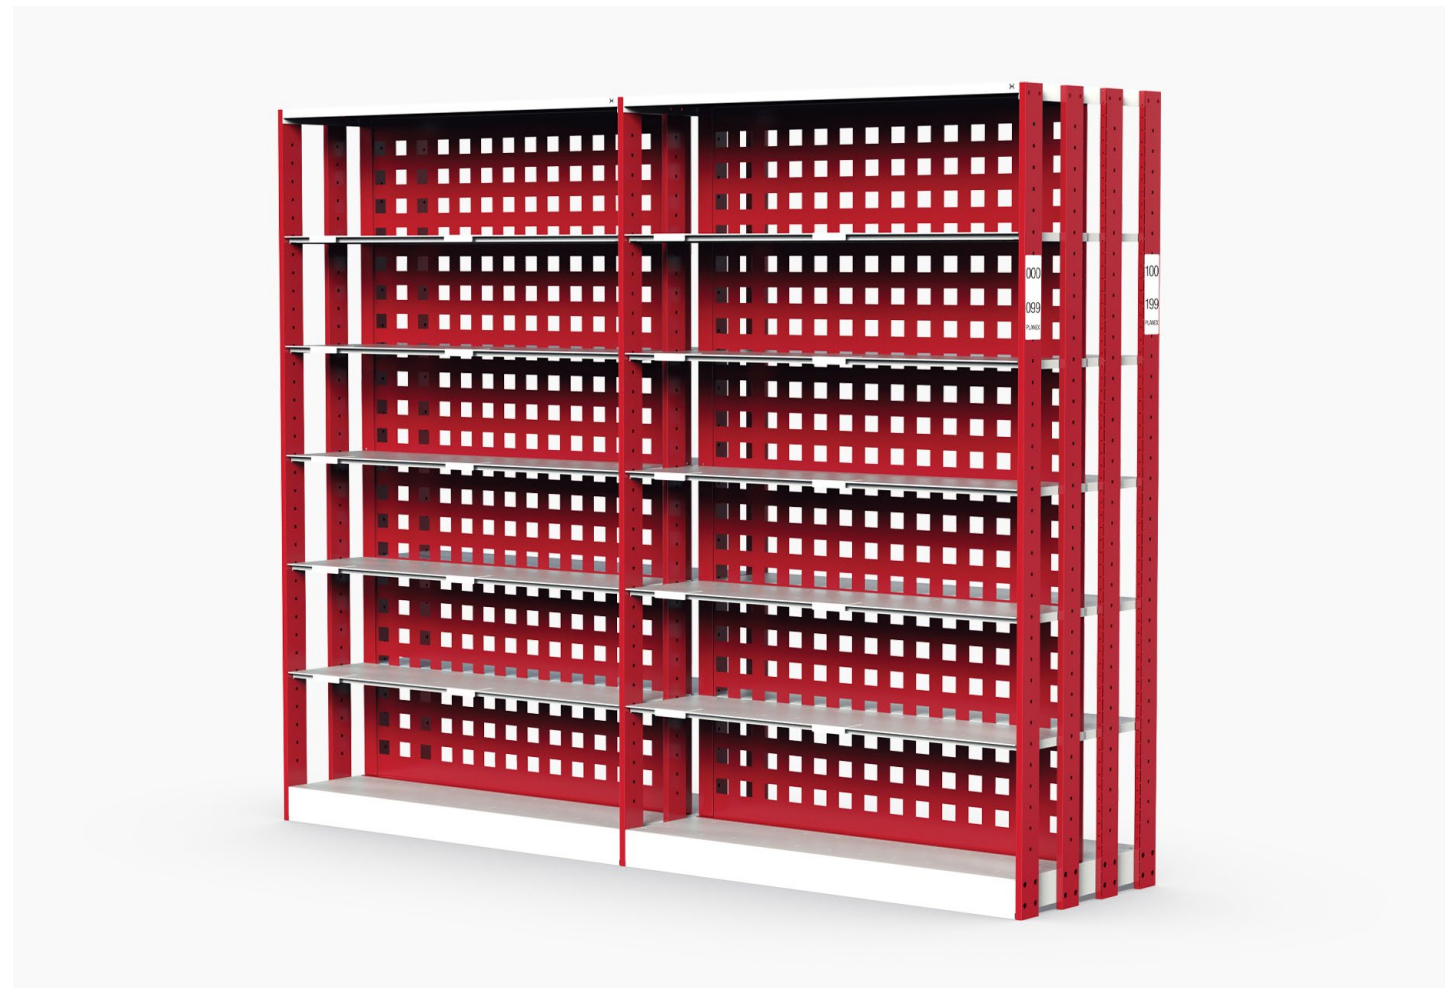

FoneVault.

FoneVault is a safe and secure solution for mobile phone storage. Individual locker columns can be connected into banks of five using the standard Planex joiner.

This made-for-purpose storage system can be wall mounted or fixed to a base, creating additional flexibility. Select from a range of locks, including a dial lock, cam lock, padlock hasp or electronic lock to suit student needs and abilities.

Product notes
: Each column is one door wide and ten doors high

.08

Project: Albert Park College
Practice: Jackson Clements Burrows (JCB)

Planex, Jackson Clements Burrows architects and Albert Park College collaborated to deliver a library shelving system with flexible shelf heights, slim-line shelves, and a light and elegant design.

Stax.

Stax shelving provides an elegant alternative to generic shelving systems. Slim vertical elements integrate with a contemporary shelf design, bringing a lightness to the overall system. Stax Shelving is available in a range of sizes and can also incorporate planter boxes.

Product notes

- : Single widths must be attached to a wall
- : Optional planter boxes

S-Series SM Tambour Door Cabinet.

SM Tambour door cabinets are economical and space saving, making them the perfect choice for administration areas or laboratories equipped with shelves. The SM Tambour accommodates a range of additional filing accessories, allowing you to tailor the cabinet to suit evolving needs.

- GECA Certified
- AFRDI Blue Tick Certified

S-Series SD Lateral Drawer Cabinet.

This all-purpose cabinet features smooth sliding drawers, ball-bearing slides, and an integrated anti-tilt mechanism. Drawers can be fitted with filing systems, but this adaptable cabinet is also perfect for storing school equipment and tools.

- GECA Certified
- AFRDI Blue Tick Certified

S-Series SB Bookcase and SP Open Unit.

This sturdy, fully welded bookcase is ideal for school rooms, tool rooms, and art and innovation hubs. Steel bookcases offer multiple benefits when compared to traditional joinery; steel storage is stronger, lasts longer, is fully recyclable and is available in 300+ colour combinations.

The 500mm deep open units suit general purpose or archival storage where extra shelf depth is important.

- AFRDI Blue Tick Certified

MOBILITY IN THE CLASSROOM.

Our mobile education range is designed for flexible environments and allows teachers to create task-oriented spaces. Teachers often need to think on their feet to create the optimum learning environment. Planex's range of mobile furniture can be easily adapted to suit a range of classroom activities. Our storage is functional and attractive and plays an important role in creating an engaging and inspiring space.

Horizontal Plan Cabinet.

The Horizontal Plan Cabinet is a great addition to educational art and design studios where two-dimensional artworks and fragile items must be stored flat. The system is available in five or ten drawer models, mounted on a stand or castors, and can be stacked two high.

Product notes
: A1, B1 and A0 sizes

S-Series Mobile Tambour Door Cabinet.

This streamlined storage solution is designed to store classroom equipment in learning spaces. With heavy duty castors and doors that roll away into the cabinet, the S-Series Mobile Tambour is ideal for classrooms or studios with restricted space.

KiddiKart.

It's especially important for early childhood learning centres and primary schools to be dynamic, versatile and flexible spaces.

The bright KiddiKart range has been designed to store classroom toys, teaching aids and children's belongings and to create optimum learning environments.

- AFRDI Blue Tick Certified

Mini Pedestal.

When space is limited, and your staff need file storage, Virtu Mini Pedestal is the answer. Complete with quality runner systems, pencil tray and locks (if required), this is a great classroom accessory. The Mini Pedestal is also ideal for libraries, office administration and laboratories.

xKart.

These great looking trollies are an asset in all educational facilities, from the tool room and classroom to science labs and food technology spaces. Our unique trollies are available in two or three tiers and feature 360-degree castors with locking brake for safe and easy movement. Choose from a range of colours to identify trollies that serve different functions around the school.

Planex Education Perfect for classrooms, offices, art spaces and school labs.

About Planex

We are an Australian company with close to 50 years' experience in sheet metal furniture manufacturing. We design and manufacture our own range of high-quality sheet metal cabinets, lockers, drawers and shelving.

Planex employees 50 people, most with specialist skills in CAD, programming, procurement, sheet metal fabrication, welding, powder coating, product assembly, warehousing and logistics. We manufacture from a 7000sqm, state-of-the-art plant based in Hallam Melbourne which means we can customise and deliver new products quickly.

We work with leading architects and designers to provide innovative storage solutions. Planex lockers and storage solutions are suitable for commercial, health, educational, government, sports, hospitality and residential markets.

For all sales enquiries, please contact us on T: +61 3 8795 1100 or E: info@planex.com.au

Management Systems and Governance

Planex has maintained certification to ISO 9001 Quality Management since 1996 and ISO 14001 Environmental Management Systems since 2007. We have integrated the principles of the global safety standard ISO 18001 within our Management System.

Product Certification*

- CETEC - Emission Test Certificate (Volatile Organic Compound concentration)
- GECA - Good Environmental Choice Australia (FFFMv3.1-2017 furniture, fittings, foam and mattresses)
- Furntech - AFRDI Green Tick - 150 Sustainability Standard: Commercial Furniture A/Platinum (recognised as GBCA Level A)
- Furntech - AFRDI Blue Tick - Design, Safety, Strength and Durability Level 3 - Commercial

Environment

We acknowledge the impact our business has on the world and believe in leaving an eco-positive footprint. As a sustainable manufacturer, we invest in the future with Planex products contributing maximum points to Green Star ratings.

We are constantly researching ways to reduce waste going to landfill and have received Government grants to engage with major industry suppliers in Planex-led initiatives to remove waste streams neglected globally by the powder coat industry.

Our policies demonstrate environmental commitment to staff and interested parties and are externally endorsed through third party certification to ISO 14001.

Our annual Sustainability Report outlines our policies and initiatives that we have instigated, available online at www.planex.com.au.
