

xLine

A place for everything and everything in its place.

xLine is a modular framework created for modern flexible workplaces and home environments. It enables users to create storage, internal divisions, and partition spaces, providing both aesthetic appeal and functional organization.

Manufacturer	Planex Sales Pty Ltd
Location	Fully manufactured in Hallam, Melbourne, Australia
Standard Warranty	Ten years
Sourcing	Locally sourced materials for body (carcass), doors, uprights and bases; hardware and fittings procured from Australia and Europe

xLine

Description	Height	Width	Depth

*Häfele coat rail included with 600w cupboard

Each element of xLine has a specific purpose that is visually cohesive, functionally self-evident, and structurally robust. xLine consists of box modules, shelves, and a slender slotted aluminium upright, creating limitless vertical and horizontal arrangements. It offers future-proof flexibility to add, remove, or reconfigure shelves and boxes as needs evolve.

Key Attributes

- Interchangeable box modules with or without fixed backs, drawers, desks, hampers, perforated backs, and doors permitting more than 700 configurations
- Modules can be mounted to be accessible from either side, ideal for spatial zoning, privacy, or display
- Slotted uprights and integrated mounting brackets provide limitless assembly configurations, requiring only a screwdriver for reconfiguring
- Future-proof with the flexibility to add, remove, or reconfigure shelves and boxes as needs and requirements change
- Materials and finishes engineered to endure repeated assembly/disassembly without compromising integrity, ensuring long-term durability and reducing obsolescence and waste
- Manufactured from high-quality, fully recyclable Australian steel and aluminium

Product Features

- Available in 3 heights: 740, 1120, and 1800 (including foot)
- A basic low-profile steel shelf rated at 100kg/m²
- Common size box modules are either fully opened or fitted with a fixed solid or optionally perforated back
- Open fronted boxes can be configured with 4 door options: flip-up, fold-down, swing metal, and swing 6mm toughened glass
- Doors and drawer fitted with integrated pulls and buffers
- Metal drawer on full extension ball bearing slides
- Adjustable shelves in cupboards
- Perforated back panels
- Optional planter boxes
- Optional extendable desktop on ball bearing slides
- Häfele coat rails in 600mm wide cupboards
- Specific wall and floor mounting brackets

Materials

- Welded body made of 100% recyclable BlueScope sheet steel (with 24.2% recycled content) and Australian extruded aluminium uprights
- Materials and finishes engineered to endure repeated assembly/disassembly without compromising integrity, ensuring long-term durability and reducing obsolescence and waste

Colours/Finishes

- Boxes are available in a range of contemporary colours
- Uprights in Satin Black, White or anodized aluminium

Perforations

- xLine offers 4 perforation patterns for the rear backing panels and optionally for boxes: Galaxy, X, Linea, and Linea Squares

Configuration

- All storage components are 880mm wide, except cupboards at 450 & 600mm wide
- All uprights are 20mm wide + 75mm depth
- First bay width is 920mm wide (20 + 880 + 20)
- Additional bay widths are 900mm wide (880 + 20)

Configuration Rules

- Free-standing room dividing requires either back-to-back configuration for stability or fixed to floor
- Storage components can face either side
- The flip-up hamper can be positioned at top only
- Fold-down hutch and desk can be positioned at centre only
- Drawers only be positioned at lowest level
- Shelves can be placed at any height
- Shelf only units require a minimum of one fixed back panel per bay
- Units combining boxes and shelves need a fixed panel on the first and subsequent third bay

Environmental Benefits and Manufacturing

The xLine system exemplifies Planex's unwavering commitment to sustainable local manufacturing and circular design.

Key environmental benefits include:

- Made in Melbourne, Australia, from fully recyclable Australian steel and aluminium
- Longevity by being able to add, reconfigure, and expand as needs evolve
- Utilization of low VOC (Volatile Organic Compound) powder coat finishes
- Designed for disassembly and reassembly using only simple hand tools
- Polymer parts labelled for segregation and sorting
- Planex factory uses a 100kW roof-mounted solar array to provide up to 25% of manufacturing electricity needs
- Iron phosphate pre-treatment AS2331.31-2001 Method 3.1

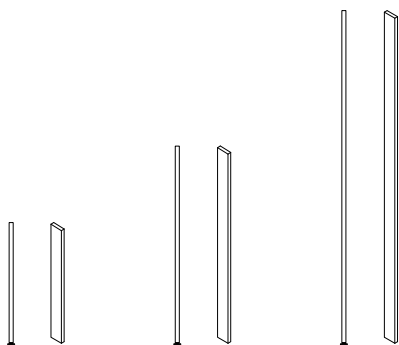

Environmental Certification

- Production facility certified ISO14001 and ISO9001
- VOC compliant materials
- GECA certified
- Aluminium Certified Australian Produced
