

xLine

xLine is the universal shelving system that can be configured in multiple ways and is the perfect addition to personalise your workplace or home environment.

As flexible workplaces evolve, xLine can be used to create internal walls and divide spaces. The versatile modules, consisting of drawers, hampers, hutches, open units, glass doors, desks and perforated panels allow you to create individual storage solutions.

Manufacturer	Planex Sales Pty Ltd
Location	Fully manufactured in Hallam, Melbourne

Planter Box (Cupboard)	225	450/600	450

*Häfele coat rail included with 600w cupboard

xLine - A place for everything and everything in its place.

xLine brings a design elegance to any interior. xLine is conceptually simple and functionally refined. It consists of standardised uprights and a basic box module that seamlessly connect; are interchangeable, reconfigurable and replaceable, providing a pathway for transforming and repurposing the installation as needs evolve.

Module functionality can be configured by adding elements such as plain or perforated backs, glass doors for a transparent quality, solid doors for personal storage, deep storage drawers, fold-down doors creating temporary work surfaces and flip-up doors making practical storage hampers when fitted up high. Working as a room divider the storage components can be configured with access from both sides making functional room division and effective workspaces.

Note: The pitch of the module is fixed at 277.5.

A special feature of the solid metal drawer/door fronts is the flush diecast powder-coated handles that are revealed by a millimetre thick shadow line.

By expanding its functionality through reconfiguring and reuse, xLine is designed to minimise its impact on the environment.

xLine is completely formed from fully recyclable folded sheet metal and not welded metal tubes or particle board simplifying segregation and ensuring 100% recyclability. This ties in closely with Planex's circular life cycle goals for all our products.

Materials

- Welded body made of 100% recyclable BlueScope sheet steel (with 24.2% recycled content)

Colours/Finishes

- Standard powder coats available in 300+ colours/finishes either uniform or in colour combinations

Perforations

- xLine offers 4 perforation patterns for the rear backing: Galaxy, X, Linea and Linea Squares

Product Features

- Refined, elegant design
- Available in 3 heights: 740, 1120 and 1800 (including foot)
- Module pitch is fixed at 277.5mm
- Range of storage components
- Easily incorporates planter boxes
- Exclusive flush diecast handles
- Toughened 6mm glass doors
- Optional extendable desk top
- Soft wiring for devices and LED task lighting
- Cupboards can be fitted with adjustable shelves
- The 600mm wide cupboard comes fitted with a Häfele coat rail
- Room divider requires back-to-back configuration for stability or fix to floor with storage components facing either side (wall and floor fixings provided)

Configuration

- All storage components are 880mm wide, except cupboards at 450 & 600mm wide
- All uprights are 20mm wide
- First bay width is 920mm wide (20 + 880 + 20)
- Additional bay widths are 900mm wide (880 + 20)
- Shelves can be placed at any height
- The Hamper can only be positioned at top
- The Hutch, Power Back & Light Shelf and Desk can only be positioned in the centre
- Drawers can only be positioned at base

Manufacturing

- Made in Melbourne, Australia using locally sourced materials
- Manufactured for disassembly
- Polymer parts labelled for segregation and sorting
- Iron phosphate pre-treatment AS2331.3.1-2001 Method 3.1
- Planex factory uses a 100kW roof mounted solar array to provide up to 25% of manufacturing electricity needs

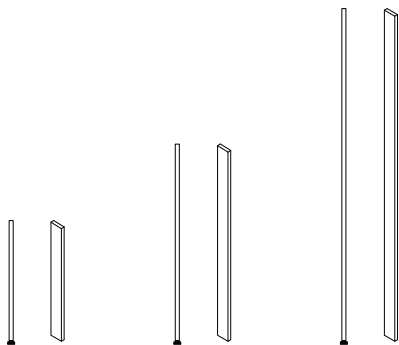

Environmental Certification

- Production facility certified ISO14001 and ISO9001
- VOC compliant materials
