

KiddiKart

Storage and Shelving for Early Childhood Centres.

Creating a dynamic versatile and flexible space for early childhood learning centres and primary schools is key to enabling optimum teaching and learning environments. The KiddiKart range has been designed to store classroom toys, teaching aids and children's belongings.

The units are low in height to enable interaction and visibility across a space. The mobility of the units assists the educators to divide the space based on activities and needs throughout the day. Planex's KiddiKart range is manufactured from 100% recyclable Australian steel.

Manufacturer	Planex Sales Pty Ltd
Location	Hallam, Melbourne
Standard Warranty	Ten years
