

Environmental Policy

Planex Sales Pty Ltd believes that environmental management is one of the company's highest corporate priorities. Environmental responsibility is accepted as an integral part of the company's operations in the field of specialized sheet metal storage systems.

Planex Sales Pty Ltd commits to comply with or exceed applicable statutory and regulatory requirements and to other requirements to which the company may subscribe in its business activities that involve an environmental impact. Certification to AS/ NZS ISO 14001 Environmental Management System provides the framework for this compliance.

The organization will continually strive to develop its knowledge and technical expertise with business and government, to improve environmental performance.

Planex Sales Pty Ltd involves its people in the setting of objectives and targets with which to measure environmental performance.

Management is committed to building the business in an environmentally sound and sustainable manner. Planex commits to waste reduction, pollution prevention, management of energy usage, emissions control, trade waste monitoring and materials minimization.

Product Quality extends the life of products sold and Planex Stewardship policy commits to product life cycle management.

This policy is applicable to persons who are associated with the manufacture of Planex Sales product range.

A handwritten signature in blue ink, consisting of a large, stylized 'J' followed by a series of loops and a final dot.
