

Linea Bin Cabinets

Linea Bin Cabinets provide an elegant way to incorporate integrated waste solutions in office fit-outs. Used either standalone or in conjunction with existing Planex Linea Cabinets, providing waste management in shared working areas, along circulation paths or near staff amenities.

Loose waste bins disrupt spatial clarity, undermine the fit-out, and quickly become unsightly when poorly positioned. Linea Bin Cabinets resolve this by seamlessly integrating waste and recycling within a single cabinet. Rather than introducing visual clutter, Linea Bin Cabinets become a refined, cohesive element of the workplace, preserving the designer's intent and overall aesthetic.

Product Description

Linea Bin Cabinets are integrated waste collection points designed for tea points, staff amenities, breakout areas, or anywhere across the floorplate. They fit seamlessly within the fit-out, preserving the overall aesthetic.

Aligned with the Linea range, these units provide flexibility while maintaining a cohesive and consistent design language.

Configuration

- Designed to match the Planex Linea range
- Accommodates 60L Australian standard colour-coded Ecobin (ecobin.com.au)
- Includes Australian-standard waste and recycling graphics
- Powder coated rings in standard recycling colours for easy, intuitive sorting
- Push-lock swing doors for simple access

Materials

- Welded body and doors made of 100% recyclable BlueScope sheet steel (with 24.2% recycled content)
- Bin inserts are made from recycled polypropylene sourced in Victoria and produced in Melbourne
- Bin inserts are 100% fully recyclable at the end of life

Manufacturing

- Made in Melbourne, Australia using locally sourced materials
- Designed for disassembly, reassembly and relocation
- Polymer parts labelled for segregation and sorting
- Iron phosphate pre-treatment AS2331.31-2001 Method 3.1
- Planex factory uses a 100kW roof mounted solar array to provide up to 25% of manufacturing electricity needs

Environmental Certification

- Linea is AFRDI-Furntech Blue and Green Certified and contributes to Green Star credit points
- Production facility certified ISO14001 and ISO9001
- VOC free
