

## xLocker2 Bin Kit

The simple way to manage waste in xLocker2 fit-outs. With lockers moving from back-of-house into shared working spaces, along circulation paths, and near staff amenities, there remains a persistent problem: What to do with office waste?

Loose waste bins clutter spaces, break the fit-out visual, and often become unsightly when inappropriately relocated. The xLocker2 Bin Kit solves this by integrating waste and recycling management directly into the xLocker2 locker system. Instead of adding standalone elements to the workplace, bins become a discreet accessible part of the locker bank consistent with the intended design.

<b>Manufacturer</b>	Planex Sales Pty Ltd
<b>Location</b>	Fully manufactured in Hallam, Melbourne
<b>Standard Warranty</b>	Ten years
<b>Sourcing</b>	Up to 98% local materials for body (carcass) doors and bases; hardware and fittings from Australia and Europe

14-LK2-BY4-2000-BIN-2D-PR	665 / 898	400	500

### Product Description

The xLocker2 Bin Kit allows lockers to perform the dual role of personal storage and as integrated waste collection points. Designed for tea points, staff amenities, breakout areas, or anywhere on the floorplate, the bin kit fits seamlessly within the modular locker system allowing waste to be managed without disrupting the overall aesthetic. As an integrated element of the modular xLocker2 system, the kit can be applied across various locker heights and configurations, providing flexibility while keeping a consistent appearance.

### Configuration

- Designed to suit standard 400mm wide xLocker2 bodies
- Accommodates 60L Australian standard colour-coded Ecobin (ecobin.com.au)
- Includes Australian-standard waste and recycling graphics
- Powder coated chutes in standard recycling colours for easy, intuitive sorting
- Push-lock door for simple access

### Materials

- Welded body and doors made of 100% recyclable BlueScope sheet steel (with 24.2% recycled content)
- Bin inserts are made from recycled polypropylene sourced in Victoria and produced in Melbourne
- Bin inserts are 100% fully recyclable at the end of life

### Kit Includes

- Doors
- Ecobin
- Shute
- Bin Shelf

### Installation

Bin kits can be retrofitted into existing 400mm wide xLocker banks or added as a completely new module

### Manufacturing

- Made in Melbourne, Australia using locally sourced materials
- Designed for disassembly, reassembly and relocation
- Polymer parts labelled for segregation and sorting
- Iron phosphate pre-treatment AS2331.3.1-2001 Method 3.1
- Planex factory uses a 100kW roof mounted solar array to provide up to 25% of manufacturing electricity needs

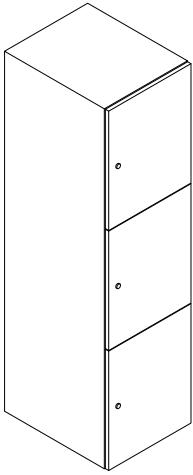

### Environmental Certification

- xLocker2 is AFRDI-Furntech Blue and Green Certified (Platinum level) and contributes to Green Star credit points
- Production facility certified ISO14001 and ISO9001
- VOC free
